Welcome to Our Company

Shaping Tomorrow: From Skyscrapers to
Software, Storytelling to Digital Worlds.

NUAM is a multi-disciplinary powerhouse that shapes futures across industries — from building skyscrapers to crafting code, from telling cinematic stories to developing digital worlds.

Who We Are

Nuam is a leading IT solutions provider specializing in delivering tailored software products and digital services across diverse industries. Our expertise includes developing advanced Clinic Management Systems (CLMS) for dental, psychological, and cosmetic clinics, as well as comprehensive software and mobile applications for study abroad consultancies, restaurants, and cafés. At Nuam, we focus on innovation, reliability, and performance, empowering businesses to achieve operational excellence through technology-driven solutions. NUAM is a future-forward company delivering transformative solutions in technology, digital branding, and architecture. We merge creativity with strategy to power real-world impact.

What We Do

Nuam specializes in developing custom software, web applications, mobile applications, and AI-powered solutions for businesses across diverse industries.

Notable products include:

- Clinic Management Systems (CLMS) – Intelligent and efficient software designed for dental, psychological, and cosmetic clinics to manage appointments, patients, and billing easily.
- Recruitment management system (RAIMS) – It is an AI-powered platform that simplifies and automates overseas recruitment, managing the complete candidate journey from registration to successful deployment.

At Nuam, our goal is to make technology simple, helpful, and effective for every business we work with.

What We Do

Clients and Markets

Nuam serves a wide international base of clients spanning:

- Healthcare & Clinics
- Overseas Recruitment
- Education & Consultancy
- Hospitality & Retail
- Architecture & Infrastructure.

Digital Branding and Creative Media

Nuam's creative wing delivers digital storytelling, brand identity design, and UI/UX experiences that make businesses stand out in competitive markets.

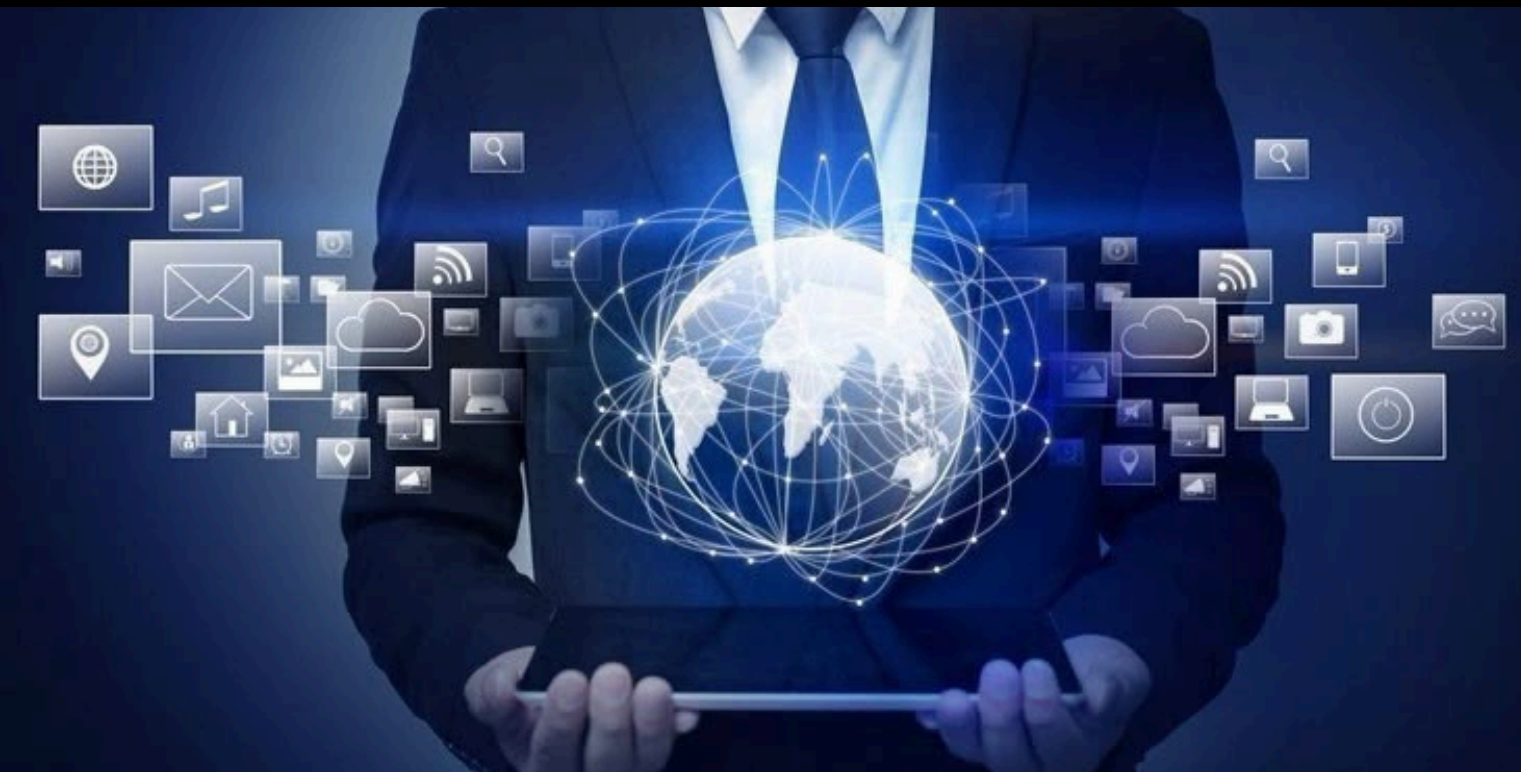

Software Development

Nuam specializes in developing custom software, mobile applications, and digital solutions across diverse industries.

Industry Approach

Nuam's project model combines cutting-edge innovation with client-centered customization, following a structured workflow that emphasizes:

- 1.Needs analysis and rapid prototyping
- 2.Agile software development
- 3.Data-driven quality assurance
- 4.Continuous performance improvement.

Vision and Mission

Vision

To drive global growth through innovative, high-quality digital solutions that empower clients, teams, and communities while shaping a more connected, efficient, and sustainable future.

Mission

To be a global catalyst for change where technology, design, and storytelling converge to create solutions that redefine user experience, operational excellence, and creative impact.

Company Review

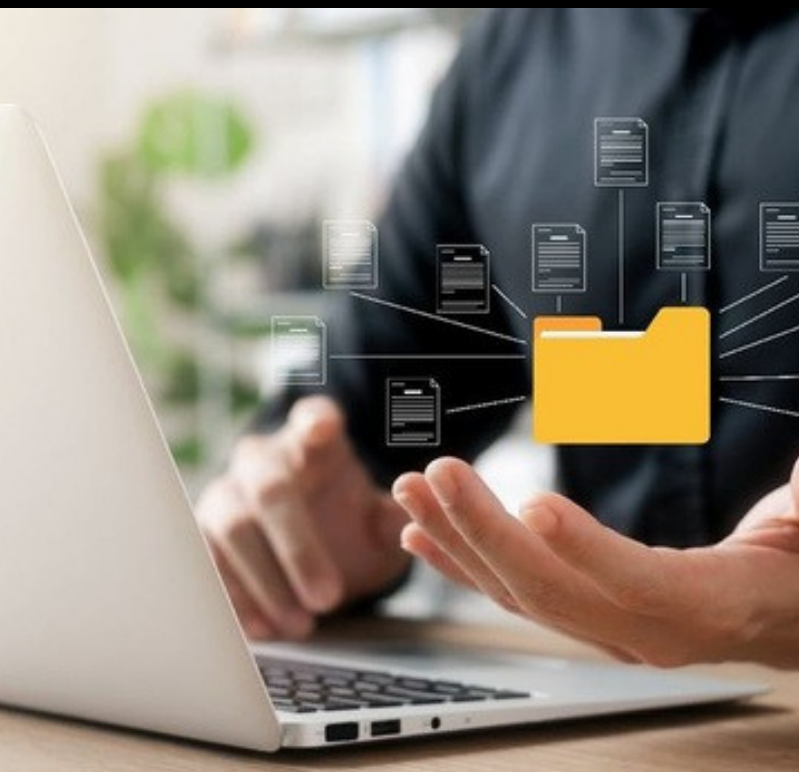

Nuam Technologies is committed to evolving as a global technology partner through:

- Expanding SaaS-based products for clinical and education systems.
- Leveraging AI and automation for process optimization.
- Partnering with overseas recruitment agencies to streamline international hiring through intelligent digital solutions.
- Nurturing a culture of continuous learning and innovation.

At Nuam, the goal is simple yet bold:

“To make technology simple, helpful, and effective for every business we work with.”

By aligning creativity with functionality, Nuam continues to help organizations transform operations, enhance client engagement, and build a better digital future.

Core Values:

INTEGRITY

Doing what's right,
even when no one
is watching.

INNOVATION

Delivering pixel perfect,
forward-thinking
solutions.

EXCELLENCE

Challenging conventions
to achieve disruptive
results.

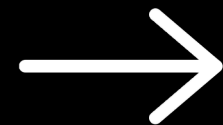

RESPECT

Empowering teams
and communities
from all walks of life.
